

*Rhonda Ann Clarke* has lived and worked internationally all her life. She is of Canadian-Trinidadian descent and a global visionary with a clear intent to serve each individual on many levels. Her educational, corporate, wellness and expatriate upbringing has taught Rhonda that we are all "same-same-but-different" in our desire to feel good inside. She believes that in receiving the educational tools to *reach in* and understand our inner world, we shall change the dynamics of how we *reach out* in our outer world.

Rhonda's natural gift of wisdom and creating international connections in all realms of existence motivates her to choose the

changes NOW. Her worldly lifestyle has taught her the beauty of flexibility and living with natural time. In detaching from situations that do not serve us anymore, whether it is a job, a relationship, a war or the illusion of materialistic needs, we create a sensation that feels good from the inside out in embracing our true essence.

Rhonda's visions in alignment with global partners are to offer "Wisdom Within Us" tools to bring awareness to each individual's emotional reactions at the moment that they occur and to take responsibility in reaching in to our shadow before reaching out in our dramatic, violent, addictive ways that do not serve us as a whole. We have the power to get out of the belief system box and think a whole new way from an authentic place we each deserve.

In retraining our government, educational and corporate attitudes by eliminating the attitude of "blame" and shifting our understanding of reaching in and taking our reactions personally, we create a whole new reality that invites each of us to express our true creative selves. Through initiating WWU and alivEmotion global programs that teach us new tools of awakening into a new realm of living, we can make the changes that will have us dancing in our shadows with bliss.

We have the wisdom within us to feel alive in motion with infinite creations!!!
